

Decision _____

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of TeleMex International for a
Certificate of Public Convenience and Necessity
to Provide Competitive Local Resold
Telecommunications Services.

Application 03-06-009
(Filed June 11, 2003)

O P I N I O N**I. Summary**

TeleMex International (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide limited facilities-based and resold local exchange telecommunications services. By this decision, we grant the requested authority subject to the terms and conditions set forth below.

II. Background

In prior decisions, we authorized the provision of competitive local exchange service, by carriers meeting specified criteria, within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc. (Verizon), Roseville Telephone Company (RTC), and Citizens Telecommunications Company of California, Inc. (CTC).

Applicant, a California corporation, seeks authority to provide resold local exchange services as a competitive local carrier (CLC) throughout Pacific's and Verizon's service territories. Applicant's principal place of business is located at 4111 Buchanan Street, Riverside, California 92503.

III. Financial Qualifications

To be granted a CPCN, an applicant for authority to provide resold local exchange must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent to meet the firm's start-up expenses.¹ An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs) in order to provide the proposed service.² Applicant provided bank statements that demonstrate that it has sufficient cash to satisfy the financial requirement.

IV. Technical Qualifications

Applicants for CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. Applicant demonstrated that its managers possess sufficient experience and knowledge to operate the company as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

V. Tariffs

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment A

¹ The financial requirement for CLCs is contained in Decision (D.) 95-12-056, Appendix C.

² The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C.

to this decision. Applicant shall correct these deficiencies in its tariff compliance filing as a condition of our approval of its tariffs.

VI. California Environmental Quality Act (CEQA)

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant represents that it will be offering services to its subscribers solely through the resale of other carriers' facilities and network elements. Therefore, it can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant must file for additional authority, and submit to any required CEQA review, before it can construct facilities other than equipment to be installed in existing buildings or structures.

VII. Categorization and Need for Hearings

In Resolution ALJ 176-3115 dated June 19, 2003, the Commission categorized this application as ratesetting, and determined that hearings were not necessary. The Commission received no protests. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary.

VIII. Comments on Draft Decision

This is an uncontested matter, in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code Section 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

IX. Conclusion

We conclude that the application conforms to our rules for authority to provide competitive local exchange and interexchange telecommunications

services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein.

3. A hearing is not required.
4. In prior decisions the Commission authorized competition, by carriers meeting specified criteria, in providing local exchange telecommunications services within the service territories of Pacific, Verizon, RTC, and CTC.
5. Applicant has a minimum of \$25,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses.
6. Applicant has sufficient additional cash or cash equivalent to cover any deposits that may be required by other telecommunications carriers in order to provide the proposed service.
7. Applicant possesses sufficient experience and knowledge to provide telecommunications services.

Conclusions of Law

1. Applicant has the financial ability to provide the proposed service.
